Bourque Logistics to Open Jacksonville Office

Expanding Support for East Coast Rail Shippers and Short Line Railroads

The Woodlands, Texas – April 20, 2018. Bourque Logistics, the leader in North American industrial logistics systems for almost 30 years, announced it will open a new office in Jacksonville, Florida, increasing its presence in the southeast and northeastern regions. The Jacksonville group will provide expanded business development, customer support, and other services for Bourque's growing client base in North America and particularly on the US east coast.

Staffed with rail logistics specialists, Bourque's shipper clients and their rail carriers will enjoy enhanced rail systems and logistics support in this vital and growing region. Bourque's aim is to maintain and increase support operations for new and existing clients and to support its clients' ambitions and strategies in their rail operations.

Bourque Logistics opened its first office in The Woodlands, TX, a suburb of Houston, more than 24 years ago to focus services on Gulf Coast chemical shippers. Since then, this office has expanded to nearly 50 logistics software engineers, rail expediting and maintenance specialists, and support staff. In addition, Bourque's international endeavor, Tank and Container Management Services (TCMS), is expanding its office in Bucharest, Romania and now has a presence in Singapore.

With over 120 shipper clients in North America, the move further strengthens Bourque's well-established position as a leader in the industry and its support of clients in advance of their business objectives.

"Our most important strategic objectives is to maintain and exceed support levels for our growing client base," said Steve Bourque, president. "The Jacksonville area has a wealth of experienced rail talent whose expertise our clients require. The addition of this new office is key to leverage the local logistics skills."

Bourque Logistics has designated Edna Rice Executive Recruiters, Inc. (www.ednarice.com) as its exclusive recruiter for sourcing rail and logistics talent in Jacksonville and elsewhere.

About Bourque Logistics

Headquartered in The Woodlands, Texas, Bourque Logistics has automated rail shipment processes for shippers since 1989 with RAILTRAC®, the leading rail fleet and shipment management software for rail shippers.

Bourque Logistics provides a full suite of modules addressing multi-mode shipment operations for loading and shipping, bill of lading submission, tracking and tracing, freight rating and payment, fleet accounting, supply chain management, and custom reporting. Our EDI data services connects shippers with their suppliers, customers, and carriers. Bourque Logistics also provides professional service support for rail fleet expediting and railcar maintenance management.
